MISSION STATEMENT

The principal aim of the Victorian Wader Study Group is to gather, through extensive planned fieldwork programs, comprehensive data on waders and terns throughout Victoria on a long-term basis.

This scientifically collected information is intended to form a factual base for conservation considerations, to be a source of information for education of a wider audience, to be a means of generating interest of the general community in environmental and conservation issues, and to be a major contribution to Australian, Flyway and Worldwide knowledge of waders and terns.

FORMATION/BACKGROUND

The wader banding fieldwork which led to the formation of the Victorian Wader Study Group commenced in December 1975. The Group was formally named in late 1978 and was subsequently incorporated in 1986.

*Your subscription is important to help support continued activities of the VWSG. As part of your subscription you will receive a hard copy of the **VWSG Bulletin**, published on the date of the annual general meeting.*
